## COMBINATION LIGHTING SERIES

Structure size

# ZH-018

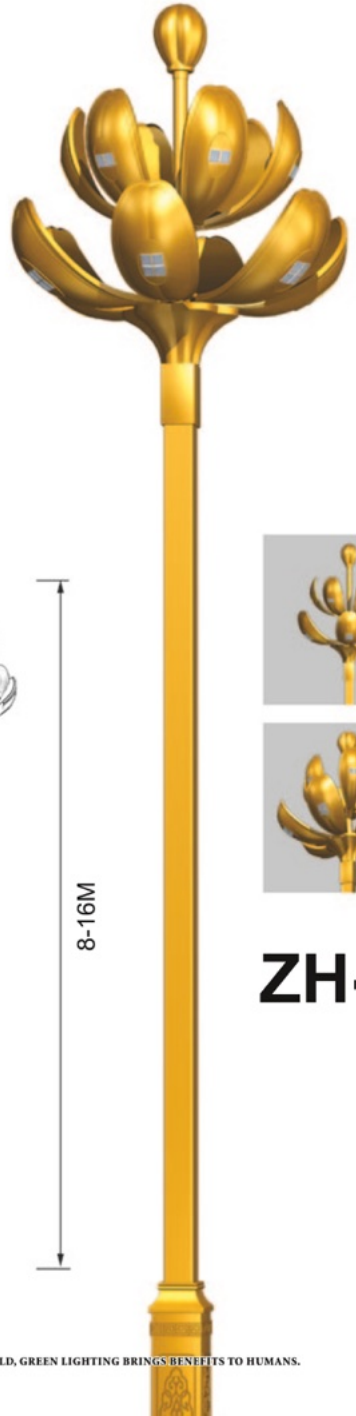

ZH–018–A 8–16m LED

| Combination lights | |
|---|---|
| Height | 8–16m |
| Lighting source | LED |
| Decorative lighting | LED |
| Input voltage | AC100–240V |
| Working temperature | –40°C –50°C |
| Operating humidity | 10%–90% |

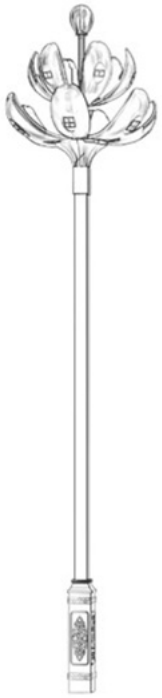

## Product description

◆ The lamp design derives from holy lotus, which is high-end, natural, simple, aesthetic. Thousands of lotus come into flower in its season, the fragrance wafts anywhere people can enjoy, the lotus never gets polluted even though it grows from silt, the lotus never gets self-obsessed even though it's from clean water. It can not only praise peace, but also admire incorruptibility.
◆ Petals are formed by one-time die-casting; various light sources could be applied; main body can shine, harmonious light is formed. It is the product of nature, but also a symbol and metaphor of human culture.

## HIGH-MAST LIGHTING SERIES

### Product description

- Feature: large lighting area, excellent lighting effect, concentrated light, uniform illumination, small glare, easy to control and maintain.
- Occasion: city square, station, wharf, highway, stadium, overpass, etc..
- Material description: The pole is made of excellent steel, and moulded into polygon plug-in steel pole, then takes anti-corrosion treatment-hot-dip galvanization; lamp skeleton is made of high quality stainless steel; fastener bolt and nut is made of stainless steel.
- Light source: 400W-1000W sodium lamp, metal halide lamp, and LED.
- Special note: Besides, our factory can provide drawings of the foundation; The lamp need to be landed safety when installed.
