ABOUT US

Company is a robust, responsible, and reliable team.
Weave your dream with wire mesh; build the future with Company Metal. Welcome.

We have been committed to metal fence, garden fence, gates, wire mesh basket, mesh cage, mesh filter and related products. They are widely used in kitchens, gardens, homes, and other industries.

Our principle is always the utmost pursuit of perfection: of products, and of service. As a result, we are entrusted by a world top 100 company; in 2016, our products were successfully applied to the highest building in Beijing. Hongye people are proud of these honors, and thus we are firmly motivated to work harder and provide our customers a better service.

We have three own factories. Two metal fence and wire mesh factories are located in Anping, Hebei province, and one fiberglass mesh factory, in Shandong. From design, choosing raw materials to production process, company has always been strict and aims to providing best quality products. All the products have been tested strictly before sales.

Company never stops being creative. We are a master of irregular products and customization. While providing the best quality, we have controlled our production cost in a relatively low MOQ. Reasonable price, wonderful design, good quality, reassuring service. This is why Company.

Company has a higher goal than becoming an everlasting company: to update the traditional wire mesh industry.
Looking forward to cooperation.
